News and Updates

Ukrainian bank will work with IFC to ensure loan provision to agriculture

According to the official information released by IFC Ukrainian bank PC "Energobank" will cooperate with International Finance Corporation as a part of consulting project "Development of agrarian sector financing in Ukraine". IFC will provide any necessary information to the bank for further development of its agricultural financing programs. IFC's program has been working in Ukraine since 2010 to ensure active development of agricultural sector financing. IFC will train bank personnel to better evaluate agricultural business operations and forecast its potential in order to decide on provision of funds.

AgroInvest comment: *UkrAgroConsult believes that as more financial institutions are aware of Ukrainian agricultural sector potential and are ready to provide financing for its further development, the faster such development occurs.*
